

**Sargent Farms** has been providing exceptional quality poultry products to wholesale and retail markets in Ontario for more than 65 years. Family owned and operated, Sargent Farms has earned its sterling reputation in the industry for progressive and innovative poultry processing and distribution.

Today, Sargent Farms employs 125 hard working employees who are dedicated to delivering quality products with uncompromised care. Our extensive offering of fresh chicken products includes whole roasting and broiler chickens, cut up parts, and specialty cut boneless and skinless poultry meat.

The continued success of Sargent Farms can be attributed to one thing: staying true to our values and principles. Our insight and innovation has been recognized through the following efforts:

- Sargent Farms became the first provincial poultry processing plant in Canada to become HACCP (Hazard Analysis and Critical Control Point) certified.
- Sargent Farms continues its commitment to safeguard the public's food supply by launching a computerized Traceability Program in 2008 that provides extensive tracking of product through all stages of production and distribution.
- Since 1999, Sargent Farms has been committed to producing Halal chicken.
- Sargent Farms was recognized and honored as Milton's Business of the Year in 2007.
